

TOWNSHIP OF ESSA
25th SIDEROAD ASPHALT RESURFACING
CONSTRUCTION NEWSLETTER – AUGUST 9, 2021

Residents located on 25th Sideroad and the surrounding area are advised the Township of Essa (Township) is proceeding with asphalt resurfacing, drainage, and guide rail upgrades on 25th Sideroad, from the 9th Line to the 10th Line.

Who has been awarded the construction contract?

The Township has awarded the construction contract for the resurfacing of 25th Sideroad to Coco Paving (Coco).

When will the work happen?

Construction for the resurfacing of 25th Sideroad will commence during the week of August 16, 2021, and will be completed by the end of September 2021.

How will my home be affected?

The 25th Sideroad improvements involve in-place processing (pulverizing) of the existing pavement surface and placement of hot mix asphalt over the existing travel road platform, construction of asphalt curb with gutter in the steep hill sections to manage road drainage and upgrading of the existing guide rail systems. All work will take place within the existing road allowance with no encroachment on private property.

During construction, traffic on 25th Sideroad will be maintained using short duration single lane closures managed using flag persons and signage. Access to private driveways and entrances will always be maintained.

Who do I call if I have a question or concern?

If you have any questions regarding the project, please call or email the Township's engineering consultant, Planmac Engineering Inc. Contact information is provided below.

Brad Kalus, LEL, C.E.T.
