NOTICE OF CONSTRUCTION
ARCHIE DUCKWORTH BRIDGE REHABILITATION – CENTRE STREET, ANGUS

The County of Simcoe hereby advises and notifies all affected parties of the rehabilitation of the Archie Duckworth Bridge over the Nottawasaga River, located on Centre Street, 0.15 km east of Huron Street in the community of Angus, Township of Essa. (see Key Map Below).

Construction is slated to commence in May 2020 and is expected to continue until late November 2020.

Centre Street will be limited to a single bi-directional lane over the bridge using portable temporary signals. The lanes will be narrower and shifted from their current path. However, one traffic lane (two-way traffic) and one pedestrian pathway/sidewalk will remain open at all times during construction. Some traffic delays may be experienced during construction, and we ask for your patience and cooperation during this time.

The scope of work includes construction and traffic staging, excavation, backfilling and compaction, the removal of the barriers, removal of the asphalt and waterproofing system (scraping), concrete removals (chipping) and patch repairs and modifications to the abutments, resurfacing of the sidewalks and the construction of new bridge barrier system, bridge deck waterproofing and asphalt paving, including associated construction at the approach roadway, such as steel beam guide rail improvements.

Therefore, the work will include sawing, jack-hammering, construction of formwork, concrete placement, excavation and backfilling, waterproofing and asphalt paving.

Comments or concerns should be directed to the appropriate contact as noted below:
