

NOTICE OF INSTALLATION

Speed Humps & Radar Speed Signs

Pilot Project

The Township of Essa hereby advises that new traffic calming measures are being introduced in your neighborhood.

Over the coming weeks, we will be installing several temporary speed humps and Radar speed Signs in your area as a traffic calming measure (Pilot project). We welcome your feedback on the location and practicality of the installed speed humps, please reach out to Janelle Eagles via email with your thoughts and concerns.

We look forward to hearing your feedback on this initiative to help shape our Township's Traffic Calming policy. All received comments will have any personal information removed and become a part of our public record.

Although every effort will be made to limit the amount of disturbance to the residents during installation, some inconveniences such as impeded traffic flows and access to driveways are to be expected. We request that when driving or walking through and around the construction area, that you proceed with caution and obey the construction traffic signage and personnel.

We thank you in advance for your cooperation throughout this Pilot project. Should you have any questions or concerns as it relates to the installation of these speed humps, please do not hesitate to contact Janelle.
