## New Firehall Planned for Angus

*Baxter — May 16, 2022* — Essa Township is excited to announce the purchase of land for a future new firehall for Angus and Essa. The existing Station #2 in Angus was constructed about 50 years ago and Essa’s population has grown such that a new firehall is needed.

The 3.5-acre property located central to Angus is easily accessible to all parts of the growing town. The new Station #2 will provide additional bays for trucks and equipment and will contain a wide range of amenities for Essa’s firefighters.

“This is an extremely exciting and important day to be able to announce this needed project.” – Fire Chief Doug Burgin. Essa residents will benefit from this important undertaking for generations to come.

The media and public are all invited to join in a sod-turning event at 9:30 am on May 18<sup>th</sup> at 14 Huron Street, the site of the new firehall.
