**Little Kicks** is the perfect introduction to soccer. Children are introduced to the basics of the game in a play-oriented yet structured format. \*Parent participation required.

**Junior Kickers** builds on basic soccer skills and children are challenged both physically and mentally. The ultimate goal is for children to participate on their own and to learn through play.

**Mighty Kickers** are confident with boundless energy. Games are fast-paced and soccer focused, with fun still at the heart. Children understand the importance of team play, matches are introduced.

**Mega Kickers** is our most advanced age group. The focus is on ball mastery and match play, yet it is still staged within our fun and engaging environment.
